Dear Brian,

Congratulations on receiving the 2011 Excellence in Nonprofits Award from the New Hampshire Business Review in recognition of the achievements of your organization, Nashua Center for the Multiply Handicap. This is a great honor, and you have much to be proud of.

For over three decades, the Nashua Center has shown an unyielding dedication to the effort to provide enriching educational programs, high-quality specialized care and support to the severely disabled. In that time, it has become one of the most respectable and well-run non-profit organizations in the state. I commend you for your contribution to New Hampshire's business culture and economy.

Congratulations once again, and best wishes as you continue your good work.

Sincerely,

Jeanne Shaheen
United States Senator
