

Nomination Letter: Kim Dubois - Monthly Service Award

Kim Dubois has been a highly respected Physical Therapist since 2008 with The Children's Pyramid. She has a natural ability with children and their families and is our "expert" in evaluating and providing services to children Newborn to Age 1! Kim is always looking to improve her clinical skills as well as improve services within The Children's Pyramid. Four months ago, The Children's Pyramid lost our Occupational Therapist. During this time, Kim expanded her services to address the sensory and feeding concerns of families in addition to gross motor development.

Kim happily travels between two regions, demonstrates flexibility, and creatively will schedule children in order to exceed her caseload limit when needed. She frequently will discuss her caseload with her supervisor to share when her caseload is getting very large and also when she can take more children. Regardless of the amount of children on her caseload, Kim is always willing to increase the frequency of her services for the children and families that would benefit from this.

The Children's Pyramid is fortunate to have Kim as a team member! She is highly respected by families, area agency, and her peers at TCP! It is with pleasure that I nominate Kim Dubois for the monthly service award
